SUMMARY

Software Engineering student at **FAST NUCES** with experience in backend development and **microservices**-based applications. Skilled in building REST APIs, scalable systems, and real-time features. Familiar with cloud deployment on **Amazon Web Services** and version control using **GitHub / GitLab**.

Have working knowledge of **React**, Tailwind CSS, and basic frontend development. Also familiar with integrating **AI-based features** into applications. Seeking a full stack developer internship.

EXPERIENCE

XR Developer, EggyStudio

06/2025 – 08/2025 | Lahore, Pakistan

Developed AR/VR apps for Android and Meta Quest 3 in Unity, delivering 2+ features weekly while collaborating across teams using Slack and Google Meet.

EDUCATION

BS Software Engineering, FAST NUCES Lahore

08/2023 – Present | Lahore, Pakistan

FSC pre Engineering, PGC College

2021 – 2023 | Lahore, Pakistan

SKILLS

JS: React, Express • **Languages:** C, C++, C# • **Tools:** GitHub/Lab, Docker, AWS, Jira • **Microservices** • **Message Brokers:** Apache Kafka, RabbitMQ, BullMQ • **Caching:** Redis • **DB & ORM:** MongoDB, PostgreSQL, Prisma & Hibernate ORM • **Java:** Spring Boot & Security • **Python:** FastAPI, NumPy

AWARDS

2nd @ RC3(Speed Programming) | 3rd @ UCP TAAKRA(Web Development)

PROJECTS

Hackathon Projects

- **TAAKRAX** - Registration platform for admins/users/officers using Stripe, MapLibre, Supabase, hCaptcha. *Built in 5 hours during UCP TAAKRA (3rd position).*
- **FairGig** - Microservices-based gig platform with analytics, grievance system, and AI anomaly detection using Node.js, Python, Docker, MongoDB. *Built in 24 hours at FAST-NUCES (SOFTEC).*
- **BookExchange** - AI-powered book exchange platform with valuation (Gemini AI), Supabase, OpenStreetMap, QR-based exchanges, wishlist, and forums. *Built in 8 hours at UMT TECHVERSE.*

Microservices Platforms

- **Apex** - AI career assistant for skills, roadmap, and job matching (Ollama, Selenium)
- **FAST-Ex** - Marketplace with real-time chat, auth (Clerk), AWS S3 storage

Monolith Platforms

- **Lost & Found Portal** - nucesfinder.vercel.app 🌐 AWS-based portal with AI spam filtering and secure reporting (50+ concurrent users/session)
- **Car Pooling System** - Ride-sharing platform with OTP auth, matching, notifications, AWS S3 storage
- **Quizify** - Spring Boot quiz system with design patterns (Factory, Singleton, Adapter, Template)
